This is Jonathan

He Wanted to go to Bali

Issues he faced

- *Budget*
- *Company*
- *Guidance*
- *Landmarks*

Solution

An application that can eliminate the confusion

Key features:

- **AI-Driven Trip Planning:** Create tailored travel plans
- **Community Insights:** Explore rated trips by other travelers
- **Local Recommendations:** Discover nearby hotels, gyms, landmarks, and restaurants
- **Traveler Connectivity:** Find travelers by name, email, or AI-suggested matches

AI-Powered Connectivity

Smarter Suggestions

- Find similarities travelers nearby
- AI highlights shared interests and experiences
- AI suggest based on availability and rating
- Automation of the application processes

Benefits

- *New idea*
- *many problems at once*
- *Low development cost*
- *Expandable*

Initial Prototype

- *Easy to Use*
- *Easy to Learn*

The End

Thank
you!!
